Drawing on 30 years' experience, Eileen partners with financial institutions to deliver tailored outsourced and co-sourced risk advisory services.

Early in her career, Eileen gained a comprehensive background of risk management in the financial institutions industry working in a community bank and later serving as a partner for a large international CPA firm. Over the course of her career, she has applied her expertise towards providing integrated risk management advisory services to an array of clientele, including banker banks, community banks, natural person credit unions, corporate credit unions, trusts, corporate and high-net-worth individual wealth management companies, private equity, insurance agencies, mortgage companies and other diversified companies.

Eileen has a true passion for educating and helping clients navigate the complexities of the everchanging risk environment. Her technical expertise spans across a wide variety of areas, including governance, enterprise risk management, internal audit, enterprise risk assessments, regulatory compliance, information technology, FDICIA and SOX compliance, and credit-risk consulting.

As a well-known technical expert in the industry, Eileen is often called upon to develop and present educational training on a variety of internal audit, risk, and banking topics for national organizations and associations. Some of them she partners with includes Institute of Internal Auditors, Bank Director, Illinois CPA Society, the National Credit Union Administration, Credit Union National Association, Association of Credit Union Audit and Risk Professionals, National Credit Union Supervisory and Audit Committees, National Association of Federal Credit Unions and Total Training Solutions, and various state banking trade associations.

Eileen is known for serving as a true business partner to clients. Through her extensive industry background and technical expertise, she helps guide institutions to optimize their risk management practices and align them to meet organizational goals.

My passion is helping clients manage their risks and achieve their objectives.
