sharp@doeren.com

Frank has nearly 20 years of experience delivering high-quality assurance services to publicly traded companies, private equity-owned enterprises and privately held businesses.

Throughout his career, Frank has performed audits, reviews and compilations tailored to the needs of clients primarily in the construction and real estate industries, including general contractors, specialized subcontractors, homebuilders, single and multi-family developers, property management companies and more. Frank works closely with his clients to address their financial due diligence needs, which involves conducting an in-depth analysis of historical records, discussing significant processes and policies with management, and offering similar transaction assistance services

Using his extensive experience, Frank delivers financial insights that clients can trust to ensure their financial operations are taken care of. His natural ability in helping clients navigate the regulatory requirements associated with their audit and assurance needs while also proactively guiding them in their business endeavors is why he is relied on as their trusted support in company transactions as they arise.

## Education

- University of Houston
- B.B.A.
  - M.S., Accountancy

## Certifications
