Michael is a seasoned expert in public accounting with over 40 years of experience, guiding a wide range of clients to their fullest potential. Providing thorough accounting, assurance and business advisory services, Michael unlocks valuable financial insights that propel businesses forward.

His professional background includes performing financial statement audits, reviews, compilations and special accounting projects in accordance with governing audit and accounting standards. Michael is a well-versed advisor on the complexities of mergers and acquisitions, turning challenges into opportunities for his clients. A passionate educator, he shares his wealth of knowledge by teaching at Walsh College, leading workshops for banks, and enlightening various industry and technical associations on accounting, audit and tax matters. His love for education combined with his exceptional skillset has elevated him into a respected professional in the dynamic world of accounting and business advisory.

Michael's commitment to providing insightful financial solutions and traversing through intricate business hurdles for his clients cements him as a respected advisor. Through his invaluable contributions, business leaders are equipped to make informed decisions and meet their objectives with confidence.
